LEADS SUSTAINABILITY

"The greatest threat to our planet is the belief that someone else will save it." - Robert Swan

Sustainability has become a crucial aspect for organisations looking to stay ahead of the curve. Delve into the key principles of sustainability and become equipped with the necessary tools and strategies to generate and maintain sustainable practices. From identifying sustainable leads to effectively nurturing them, your facilitator will guide you through the entire process. Learn the latest trends and best practices in leading sustainability, ensuring that you are equipped with the knowledge to thrive. Don't miss out on this opportunity to enhance your sustainable practices and make a positive impact on the environment.

Key Course Content:

- Understanding the importance of creating a sustainable environment for future generations
- Identifying and implementing sustainable practices within the organisation
- Developing strategies to reduce waste and conserve resources
- Promoting a culture of sustainability among team members and stakeholders
- Implementing responsible sourcing and supply chain management
- Setting and achieving sustainability goals
- Measuring and reporting on sustainability progress
- Educating and engaging customers on sustainable practices
- Adapting to changing environmental regulations and policies
- Leading change practices

Target Audience:

The course can be tailored for the specific cohort whether it be the leadership team, another group of managers/team leaders or employees.

Duration:

This course is available as a 1-day course or a truncated ½ -day course.

Delivery:

This course can be delivered both in-person or virtually. For virtual delivery, we can use our virtual platforms or your organisations.

Group Size:

We recommend a group size of 4-10 people.
